

# CA-NANOCLK

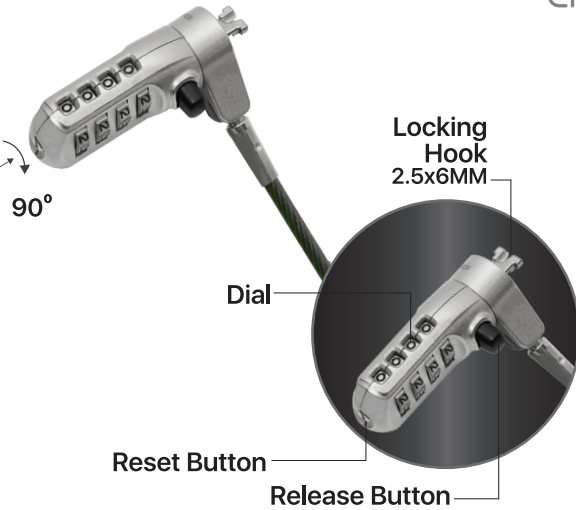

Numbered NANO Security Cable Lock (2m)

**C**PROTECT

CADYCE Numbered NANO Security Cable Lock effortlessly protects your digital assets—whether it's computer, laptop, or monitor. Secure your tech with ease.

## Application

**C**PROTECT

## Features

- Suitable for all devices having built-in 2.5 x 6 mm Nano lock slot
- 4 digit Resettable combination key (0000 - 9999)
- Twisted steel cable
- Easy to install

## Setting Your Own Combination/Password:

1. Factory preset combination of the dials is 0-0-0-0.
2. Turn the Reset Button 90° clockwise with a small flathead screwdriver or a similar tool.
3. Turn the dials and set your own desired combination.
4. Turn the Reset Button 90° anticlockwise back to its original position.
5. You can now use the new combination to open the lock.

## How to Install:

- 1) Fix the loop end of the cable lock to a non-movable object.
- 2) Press and hold the Release Button, insert the locking hook of the cable into the locking slot of your computer or laptop.
- 3) Release the button and randomly rotate the dials to lock and secure your valuable assets.

Note: Keep your combination in a safe and easily accessible place for future reference.
