USB to Parallel 25 pin Bidirectional Cable

USB to Parallel Bi-Directional cable allows you to connect any Windows PC with a USB port to nearly any parallel printer.

2.0

• Connects to parallel printer (25 pin) through a USB port on your PC

• Bus powered

• USB Specification revision 1.1 compliant

• IEEE-1284 1994 (Bi-directional parallel interface)

• Plug & play Installation

Items	Description
PC Interface	USB 1.1 compliant A type male connector
Parallel Connector	IEEE 1284 bi-directional DB 25/36 female connector
Specification Support	Unified 512 byte buffer, Dynamically allocated for upstream and downstream data flow.
Total Length	2 M
Input Pins Voltage Level	5V tolerant
Certifications	CE, FCC

Certifications:

CE FC RoHS
